

# Surgical Treatment of Haemorrhoids Criteria Based Access

Before consideration of referral for management in secondary care, please review advice on the Remedy website (<a href="www.remedy.bnssgccg.nhs.uk/">www.remedy.bnssgccg.nhs.uk/</a>) or consider use of advice and guidance services where available.

### Section A - Criteria to Access Treatment

Funding Approval for surgical treatment will only be provided by the CCG for patients meeting the criteria set out below.

1. Conservative management and treatment has failed

#### AND

2.a) Persistent Grade 1 or grade 2 haemorrhoids that have not improved with dietary changes, banding or injection.

#### OR

2.b) Recurrent grade 3 or grade 4 combined internal/external haemorrhoids with persistent pain or bleeding. (in cases where there is significant rectal bleeding the patient should be examined internally by a specialist)

## OR

2.c) Irreducible and large external haemorrhoids.

## Surgical treatments included within this policy:

- Haemorrhoidectomy
- Partial internal sphincterotomy for haemorrhoid
- Stapled haemorrhoidectomy
- · Banding of haemorrhoids
- HALO/THD for Haemorrhoids
- Botulinum Toxin is commissioned in the treatment of Anal Fissures.

# Bristol, North Somerset and South Gloucestershire

**Integrated Care Board** 

#### **Section B - Treatment Exclusions**

- Cryotherapy
- · Infrared photocoagulation of haemorrhoid
- Evacuation of perianal haematoma
- Forced manual dilation of anus for haemorrhoids
- Manual reduction of prolapsed haemorrhoid
- Radio (RAFAELO) (kit required) pending possible business case.

## **BRAN**

For any health- related decision, it is important to consider "BRAN" which stands for:

- Benefits
- Risks
- Alternatives
- Do Nothing

### **Benefits**

Reduction of pain and bleeding.

#### Risks

Operative complications i.e. bleeding and infection. Long term complications of scaring.

### **Alternatives**

Continue to treat conditions conservatively, if appropriate.

## **Do Nothing**

Remember, you always have the option to do nothing. Doing nothing is an equally reasonable option to doing something. Sometimes "not yet" is a good enough answer until you gather more information.

## **Haemorrhoids-Plain Language Summary**

Haemorrhoids (piles) are lumps inside and around the anus. They often get better on their own after a few days with conservative treatment.

# **Shared Decision Making**

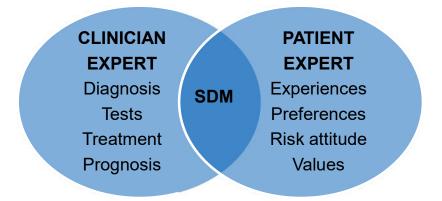

If a person fulfils the criteria for Surgical Treatment for haemorrhoids it is important to have a partnership approach between the person and the clinician.

**Integrated Care Board** 

Shared Decision Making (SDM) is the meeting of minds of two types of experts:

It puts people at the centre of decisions about their own treatment and care and respects what is unique about them. It means that people receiving care and clinicians delivering care can understand what is important to the other person.

The person and their clinician may find it helpful to use 'Ask 3 Questions':

- 1. What are my options? (see sections above)
- 2. What are the pros and cons of each option for **me**?
- 3. How can I make sure that I have made the right decision?

## This policy has been developed with the aid of the following:

1. National Health Service (2019) Health A to Z: Piles (haemorrhoids). www.nhs.uk/conditions

## **Due regard**

In carrying out their functions, the Bristol, North Somerset and South Gloucestershire Clinical Policy Review Group (CPRG) are committed to having due regard to the Public Sector Equality Duty (PSED). This applies to all the activities for which the ICB is responsible, including policy development and review.

## **Document Control**

Title of document:	Surgical Treatment of Haemorrhoids
Authors job title(s):	Commissioning policy support officer
Document version:	2223.01.01
Supersedes:	1819.2.00
Discussed at Commissioning Policy Review Group (CPRG):	May 2022
Approval Route (see <u>Governance</u> ):	Level 2
Approval Date	March 2023
Date of Adoption:	1st August 2023
Publication/issue date:	1st August 2023
Review due date:	Earliest of either NICE publication or three years from approval.

## Governance

Commissioning policies are assessed for their likely level of impact on BNSSG ICB and the population for which it is responsible. This determines the appropriate level of sign off. The below described the approval route for each score category.

Policy Category	Approval By
Level 1	Commissioning Policy Review Group.
Level 2	Chief Medical Officer, or Chief Nursing Officer,
	or System Executive Group Chair
Level 3	ICB Board

## **OPCS Procedure codes**

Must have any of (primary only):

H511,H512,H513,H518,H519,H521,H522,H523,H524,H528,H529,H531,H532,H533,H538, H539

## **Support**
