

LeDeR Service User Forum

All deaths of people with learning disabilities have a review to find out why people died

We want to find out if people had good healthcare and to make sure they did not die too soon

A reviewer looks at the person's health record to check what happened before they died

The reviewer talks to people who provided health care and to a person who knows the person with learning disabilities really well.

The reviewer writes a report and an action plan if changes are needed in health care provided to people with learning disabilities

Themes from reviews are reported to a Steering Group & a new **LeDeR Service User Forum**

We need your help

We are looking for 16 people with learning disabilities from Bristol, South Gloucestershire & North Somerset

These 16 people will help us set up the **LeDeR Service User Forum**

The meetings will be **4** times a year.

We will pay travel expenses

At the meetings we will tell you about themes of care that reviewers found. We want you to tell us what you think about the findings.

Once a year you will meet with the LeDeR Steering Group. You can tell them about what you think and changes you think should happen

If you want to be in the **LeDeR Service User Forum** contact Jenny Thompson
