

DWAC: the wider local and national picture

DWAC Gloucestershire's Sustainability & Transformation Plan

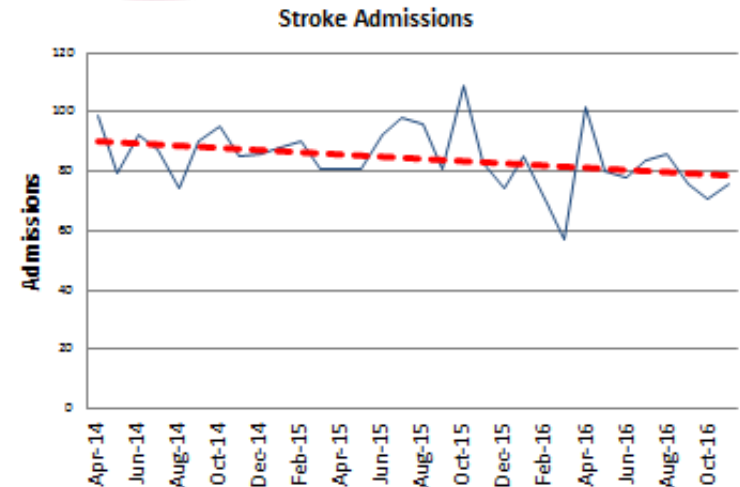

Included in it's 'Foundations of Success' – A
Delivery Status Update on our Preparatory Year
April 2016 - March 2017

STP analysis showed reducing stroke admissions:

• Circulatory Programme:

- Improved performance against proportion of patients directly admitted to the Stroke Unit within 4hrs has also been sustained from 28.6% (Jan-Mar 2016) to 45.0% (Apr – Nov 2016).
- 51 practices have fully completed the Don't Wait to Anticoagulate project, covering approximately 67% of the CCG's total population (417,000 combined caseload)
- A corresponding reduction in Stroke admissions for our population can be seen in this graph:

Award winning

- DWAC received a Pharmaceutical Market Europe award for '@Excellence in Healthcare Collaborations and Partnerships' in 2016
- Recognised as best practice in Healthcare Pioneers 2017 report which was developed by the AF Association and endorsed by the All-Party Parliamentary Group on Atrial Fibrillation

Now being actively adopted by other AHSNs

- **Oxford AHSN** **Bucks & Berks AF Stroke prevention programme**
- **NWC AHSN** **Collaboration work with the NW innovation agency to prevent strokes caused by AF**
- **Y & H AHSN** **Collaboration work with the Y&H AHSN to prevent strokes caused by AF**
- **NENC AHSN** **Collaboration work with the NENC AHSN to prevent strokes caused by AF**
