

Reference: FOI.ICB-2223/025

Subject: Individual Funding Requests received for treatment of OCD/BDD

*I can confirm that the ICB **does hold some of the information requested**; please see responses below:*

QUESTION	RESPONSE
1) Total numbers of Individual Funding Requests (IFRs) received for treatment at an adult national and specialist OCD/BDD service per year, for the past 20 years (or however far the records go back) AND the number of those that were successful - when there was a diagnosis of BDD.	Zero
2) Total numbers of Individual Funding Requests (IFRs) received for treatment at an adult national and specialist OCD/BDD service per year, for the past 20 years (or however far the records go back) AND the number of those that were successful.	The number of Individual Funding Requests received for each year is less than 10; therefore they have not been included as this could potentially make the patients identifiable. FOI requests and responses are publicly available and therefore reference to personal identifiable data has not been included. The ICB has applied the Section 40 (Personal data) exemption to any data which identifies patients. The data requested constitutes health related records and therefore the ICB is unable to disclose this data.
3) How many adults with a diagnosis of body dysmorphic disorder (BDD) have been referred to tertiary specialist services for treatment per year for the past 20 years (or however far the records go back)	Bristol, North Somerset and South Gloucestershire Integrated Care Board (BNSSG ICB) does not hold this information.

<p>4) Total numbers of Individual Funding Requests (IFRs) received for treatment at a child and adolescent national and specialist OCD service per year, for the past 20 years (or however far the records go back) AND the number of those that were successful - when there was a diagnosis of BDD.</p>	<p>Zero</p>
<p>5) Total numbers of Individual Funding Requests (IFRs) received for treatment at a child and adolescent national and specialist OCD service per year, for the past 20 years (or however far the records go back) AND the number of those that were successful</p>	<p>The number of Individual Funding Requests received for each year is less than 10; therefore they have not been included as this could potentially make the patients identifiable.</p> <p>FOI requests and responses are publicly available and therefore reference to personal identifiable data has not been included.
