Subject: Residential/Nursing Home Fees

*I can confirm that the ICB **does hold some of the information requested**; please see responses below:*

QUESTION	RESPONSE
<p>If you could please provide the following information relating to the weekly fees that would be much appreciated:</p> <p>Could you provide the figures for the average weekly fee rates charged for adults receiving care in a long-term residential care home split by the following criteria:</p> <ol style="list-style-type: none"> 1.) Primary care need: Where the primary care need is for example – Mental Health (MH), Acquired Brain Injury (ABI), Learning Disabilities (LD) or other conditions. 2.) Level of complexity: Low Acuity, Mid-Acuity and High Acuity (whereby high acuity would be the most complex cases and patients requiring the highest level of care). What would the fees be for the highest acuity cases and their comparison to fees for the low acuity and mid acuity cases per week? 	<p>The ICB has interpreted “Primary care need” as meaning adults who are eligible for NHS Continuing Healthcare (CHC).</p> <p>The ICB categorises eligible CHC cases using the following nationally mandated fields:</p> <ul style="list-style-type: none"> • Physical disability • Learning Disability • Mental Health • Fast Track End of Life <p>The ICB does not use a complexity score, and so it is not possible to split the eligible caseload around the acuity of care.</p> <p>A breakdown of the current weekly cost of CHC placements in care homes, as of 3 April 2023, is included below using the four national CHC care categories.</p>

I have attached an excel for you to fill out the relevant weekly fees by level of acuity for each of the primary conditions.	Range	CHC MH	CHC LD	CHC PD	CHC FT
	Lowest	868	1500	863	864
	Median	1289	3740	1300	1279
	Highest	4257	24381	5964	2085

The information provided in this response is accurate as of 3 April 2023 and has been approved for release by Rosi Shepherd, Chief Nursing Officer for NHS Bristol, North Somerset and South Gloucestershire ICB.
