QUESTION	RESPONSE
<p>I have attached an article from the Economist magazine focusing on one hospital in Kent. I would like to know if any of your hospitals are using it please.</p>	<p>We advise you to contact the Acute Hospital Trusts directly who will hold this information.</p> <p>North Bristol NHS Trust (NBT): https://www.nbt.nhs.uk/about-us/information-governance/freedom-information/request-information / foi@nbt.nhs.uk</p> <p>University Hospitals Bristol and Weston NHS Foundation Trust (UHBW): https://www.uhbw.nhs.uk/p/how-we-use-your-data/freedom-of-information-foi-requests / FreedomOfInfo@uhbw.nhs.uk</p>

The screenshot shows a mobile news article from The Economist. The article title is "The technology that can help British hospitals work better" and the subtitle is "How IT is helping to ease strains in A&E departments in Kent". The article text describes the use of TeleTracking, a tracking system that provides real-time data on patient location and wait times. It mentions that aggregated data is shown on eight giant dashboards, and that wait times for patients admitted from A&E onto a ward are almost three times shorter than before the pandemic. The article is dated Feb 9th 2023 and is from MAIDSTONE. There is a "Share" button and a "Download The Economist app for the best reading experience" banner at the bottom.

The information provided in this response is accurate as of 13 April 2023 and has been approved for release by Sarah Truelove, Deputy Chief Executive and Chief Finance Officer for NHS Bristol, North Somerset and South Gloucestershire ICB.
