Subject: Transforming Care

I can confirm that the ICB does hold some of the information requested; please see responses below:

QUESTION	RESPONSE
<p>As I appreciate the Integrated Care Board (ICB) has only recently been established, for questions where I'm asking for historical data (2015 - present) I'm looking for the data held, if possible, by the previous CCGs which now form your ICB:</p> <p>NHS Bristol, North Somerset and South Gloucestershire CCG</p> <p>The questions I would like answered are as follows:</p> <p>1. Could you provide your actual inpatient rates for Transforming Care (learning disabilities & autism) patients for each year since 2015 to present.</p>	<p>April 2018 – March 2019 CCG (locked rehabilitation) commissioned average inpatient rate = 13 NHSE (Secure setting) commissioned inpatient rate = 31</p> <p>April 2019 – March 2020 CCG (locked rehabilitation) commissioned average inpatient rate = 13 NHSE (Secure setting) commissioned inpatient rate = 20</p> <p>April 2020 – March 2021 CCG (locked rehabilitation) commissioned inpatient rate = 14 NHSE (Secure setting) commissioned inpatient rate = 22</p> <p>April 2021 – March 2022 CCG (locked rehabilitation) commissioned inpatient rate = 17 NHSE (Secure setting) commissioned inpatient rate = 21</p> <p>March 2022 to September 2022 CCG (locked rehabilitation) commissioned inpatient rate = 14</p>

	<p>NHSE (Secure setting) commissioned inpatient rate = 21</p> <p>* data prior to BNSSG merger at start of 2018/19 unavailable</p>
<p>2. Could you provide your target rate for Transforming Care (learning disabilities & autism) patients for each corresponding year?</p>	<p>Figures provided are for Q4 (Jan-Mar) for each year data is available</p> <p>2018 – 2019 CCG (locked rehabilitation) commissioned average inpatient rate = 4 NHSE (Secure setting) commissioned inpatient rate = 20</p> <p>2019 – 2020 CCG (locked rehabilitation) commissioned inpatient rate = 15 NHSE (Secure setting) commissioned inpatient rate = 15</p> <p>2020-2021 CCG (locked rehabilitation) commissioned inpatient rate = 12 NHSE (Secure setting) commissioned inpatient rate = 15</p> <p>2021-2022 CCG (locked rehabilitation) commissioned inpatient rate = 12 NHSE (Secure setting) commissioned inpatient rate = Information now held by South West Provider Collaborative</p> <p>2022 – 2023 CCG / ICB (locked rehabilitation) commissioned inpatient rate = 13 NHSE (Secure setting) commissioned inpatient rate = Information now held by South West Provider Collaborative</p> <p>* data prior to BNSSG merger at start of 2018/19 unavailable</p>

<p>3. Since 2015, have you required NHS England intervention or oversight at any stage relating to your delivery of Transforming Care services?</p>	<p>No</p>
<p>4. How many of your inpatients since 2015 have been discharged into private hospital or healthcare settings?</p>	<p>The number of patients is less than 10; therefore they have not been included as this could potentially make the patients identifiable.</p> <p>FOI requests and responses are publicly available and therefore reference to personal identifiable data has been redacted. The CCG has applied the Section 40 (Personal data) exemption to any data which identifies patients. The data requested constitutes health related records and therefore the CCG is unable to disclose this data.</p>
<p>5. How much have you spent on delivering Transforming Care services each year since 2015?</p>	<p>2018/19 £4,536,889 2019/20 £3,712,554 2020/21 £4,967,325 2021/22 £7,075,302 2022/23 £2,531,575 (<i>as at end of September 2022</i>)</p> <p>*data prior to BNSSG merger at start of 2018/19 unavailable</p>
<p>6. If mechanical restraint is used within your organisation, how many recorded instances of its use have there been each year since 2015?</p>	<p>The ICB and former CCG is not a provider organisation and therefore is not in a position to consider/use mechanical restraint</p>
<p>7. If mechanical restraint is used within your organisation, what are the methods of mechanical restraint currently used?</p>	<p>The ICB and former CCG is not a provider organisation and therefore is not in a position to consider/use mechanical restraint</p>

8. How often are these methods and guidelines reviewed and, if necessary, updated?	As above
