<p><b>1. ARRS spend of PCNs for the 2022/23 Financial Year (April-March)</b></p> <table border="1" data-bbox="109 711 777 994"> <thead> <tr> <th>PCN Name</th> <th>PCN ODS Code</th> <th>ARRS Spend 2022-2023</th> </tr> </thead> <tbody> <tr> <td>PCN 1...</td> <td>A123455</td> <td>£XXX,XXX</td> </tr> <tr> <td>PCN 2...</td> <td>A123456</td> <td>£XXX,XXX</td> </tr> </tbody> </table>	PCN Name	PCN ODS Code	ARRS Spend 2022-2023	PCN 1...	A123455	£XXX,XXX	PCN 2...	A123456	£XXX,XXX	<p>Please see enclosed spreadsheet.</p> <p>The data is taken from the April 23 NHS E ARRS Portal download. The limitations with this data are that it will not include the total claim data from the portal as we are limited to the first 5,000 lines.</p> <p>The data will not include any late claims across the year.</p>

PCN 2...	A123456	£XXX,XXX								
<p><b>2. Any Local Enhanced Services (LES) incentive Schemes, particularly for long-term conditions in the ICB.</b></p> <p>In particular, i'd be interested if there are any long-term condition targets that are at local level (that isn't QOF / DES) that PCN's are being incentivised to hit. This would be really helpful.</p>	<p>Please find enclosed all our local enhanced services for 22/23 (23/24 not yet issued).</p> <p>Dementia and Diabetes have a specific LTC focus, we do not incentive targets through our LESs, but pay practices in exchange for specific activity.</p>
