

**Reference:** FOI.ICB-2324/306

**Subject:** Diabetes Referrals

*I can confirm that the ICB does hold the information requested; please see responses below:*

<b>QUESTION</b>	<b>RESPONSE</b>
<p>We are interested in understanding how diabetic patients who are medium to high risk of lower limb complications like ulcers and amputations are referred by GPs into secondary care.</p> <p>How would I please go about accessing the guidelines followed by the local GPs in the ICB?</p>	<p>REMEDY outlines the BNSSG referral pathways and is where the guidelines followed by local GPs are accessed. Please find below the link to the Diabetes page:</p> <p><a href="#">Diabetes (Remedy BNSSG ICB)</a></p>
